EMPLOYEE PET POLICY

We love employee pets! We believe that pets can foster a friendlier and happier workplace. They're fun, playful, and can have a positive influence on our work. However, we want to make sure that employee animals don't disrupt our operations, damage properties, or cause medical issues. To ensure maximum pet and people safety, the following is Green Dog's policy on bringing pets to work, as well as providing treatment for employee pets.

Pets at Work (Day Boarding)

First:

- Pets must be approved by a manager prior to bringing in to the workspace. (*Message a manager on Slack*)
- Each pet must have a profile set up in **EzyVet** prior to visit. (*See any CSR to help with this*)
- Pets must be fully vaccinated.

Second:

- Pets must be kept out of the treatment area or any area where client pets are in constant transit.
- Pets must be kept on a leash, in a crate, kennel, or other approved area.
- Employees must clean up after their pets (this includes cleaning kennels, beds, outdoor areas, bowls, equipment, etc...).
- **Employees are 100% responsible for their pets' actions and well-being.**

Medical Treatment of Employee Pet(s)

Employee pets in treatment are viewed the same as client pets in treatment. That being said...

First:

- Pet must have a profile set up in EzyVet (or applicable system) prior to treatment.
- Employees must obtain **prior** approval from a manager or doctor prior to bringing a pet in (if a true emergency, immediate notice to manager or doctor will suffice).

Second:

- Under no circumstances should an employee provide treatment or use medical supplies without the approval of a veterinarian.
- Upon approval and guidance from a licensed Green Dog veterinarian, a qualified employee of Green Dog may conduct medical treatment on the pet, ensuring that all treatments are recorded in the medical record.

Third:

- Payment for services or products rendered should be paid on site when services are rendered.
- Employees must receive prior approval from the CEO for any payment plans.
- If payment plans are approved they are to be set up and paid directly to Tiffany Tesoro through slack and **not in house.**
- Employee pet charges are payable with cash, check, or credit card.
- Upon termination of employment, all unpaid balances for employee discounted products and services will be due in full and all future discounts will cease.

Employee Pet Discounts:

- 100% off vet exams, ultrasounds, radiographs,
- 50% off radiology report
- 50% off all other clinic services (NADs, NEAT services, etc...)
- 30% off cytology, histopathology, etc...
- \$20 per bloodwork submission
- 25% off advanced procedures/surgery
- 80% off extractions
- 25% off medications, vaccines, microchipping & retail (Food not included)
- 80% off CT scan
- Specialty Services such as Cardio and Ophthalmology:
Dr. Saelinger (VE ECHO) \$675
Dr. D'Urso (SO ECHO) \$450
- Special order items that we don't normally stock or sell to clients will be sold to staff at cost plus 15%. (Must buy the entire package so we don't have leftovers)
- **Any services or treatments being rendered in house, needs to be approved by manager or dvm to input charges and discounts. Cannot be done after hours and needs to be invoiced properly and paid in full on the day of.**

NOTE:

An employee pet is considered a pet residing at the address of the employee and is registered in the name of that employee or immediate family member who also resides at the same address. Green Dog may provide discretionary discounts to family and friends at different discount rates.

Green Dog is happy to provide our employees with discounted pet services. There may be certain days that are better than others to bring your pet in for treatment, due to case volume. Employee pet discounts are an added benefit to our employees, so please take a moment to always thank our doctors and technicians for the extra time taken to care for our furry friends.

PLEASE NOTE that once an employee's balance reaches \$1,000 in EzyVet, HR will reach out to the employee in regards to a payment plan to pay off the balance in EzyVet.

NON-EMPLOYEE PET DISCOUNTS

FRIENDS AND FAMILY DISCOUNT

What they get:
