

CORE VALUES

I.C.A.R.E.

I - Integrity, C - Compassion, A - Accountability, R - Reliability, E - Education

- **INTEGRITY** - Are you guided by an inner desire to do the right thing?

Example of Not having Integrity: Doing someone wrong and saying "I had no choice"

- **COMPASSION** - Can you put yourself in the shoes of someone else, feel what they feel, and provide them the care they need.

Example of Not having Compassion: Not helping a struggling coworker because you're having a bad day too.

- **ACCOUNTABILITY** - Do you take responsibility for your actions and for the environment around you? You are not a victim.

Example of Not showing Accountability: Blaming poor work quality on "being super busy"

- **RELIABILITY** - Can you be counted on all the time? Can others rely on you to be there and do the things needed?

Example of Not being Reliable: Being 10 minutes late everyday.

- **EDUCATION** - Are you open to the fact you don't know it all and humble enough to be a student again despite your title or education?

Example of Not prioritizing Education: Tuning out a training session because "I already know this"
