

PTO/Sick Time/Unpaid Time Off Policy

Too often in pet care the pets are cared for while the people who care for them are not. At Green Dog, we believe in all employees taking the time and space they need to keep their lives balanced and healthy. We believe our Time Off Policy reflects this belief.

We currently have two (2) forms of time-off: Paid (PTO) and Unpaid Vacation.

Paid Time-Off (PTO)

Getting sick stinks and going on vacation is awesome, ironically we use the same method for both of these instances, "PTO".

- Green Dog offers combined vacation/sick time (PTO) to all full-time and part-time employees who are not on a leave of absence.
- PTO is assigned at the beginning of each calendar year for full-time employees.
- PTO is accrued at a rate of 1 hour per each 30 hours worked, capped at 80 hours per year for part-time employees.
- PTO is to be used only for any sick days or approved vacation days. PTO may only be applied to replace regularly scheduled work days missed due to illness or approved vacation. PTO cannot be used in addition to full attendance to artificially increase hours or earnings.
- PTO must be used in full day increments.
- Employees are eligible for PTO the month following completion of their first 90 day period.
- Unused PTO will be paid out at the end of the year as wages. PTO payout is proportional to the amount of time worked/hire date of the employee for that year.
- An employee's initial PTO assignment amount may be adjusted for the balance of the year following his/her first 90 day period.

Unpaid Vacation

Green Dog acknowledges that a couple weeks off a year is not enough for most people and we know most employees understand that Green Dog cannot pay people to not work for long periods of time. Therefore, we offer all employees, regardless of tenure or position, the option of voluntary unpaid vacation.

- **Unpaid does not mean uncommunicated.** "Unpaid" vacation requests beyond 2 consecutive weeks require senior management review and may be subject to operational feasibility.
- All unpaid vacation must be submitted and approved the same way as PTO.
 - Requested in advance
 - Requested in whichever request system Green Dog currently uses. At present, employees must directly request time off in When I Work.
 - Requests made in any other form will not be processed.
 - Requests must be approved by the appropriate manager.
- Employees receive no credit for hours worked when on an unpaid vacation.

Requesting All Time Off:

- Time-off must be requested a minimum of 45 days in advance.
- Requested in whichever request system Green Dog currently uses. At present, employees must directly request time off in When I Work.
 - Time-off requests made in any other form will not be processed.

- Time-off must be approved by an appropriate manager.

Applying PTO:

- PTO must be requested via the biweekly payroll questionnaire.
 - This is a link sent through Slack and email every biweekly pay period.

PTO Value

Per the state of California, PTO is considered wages. Therefore, the hourly value of an employee's PTO is equal to the employee's hourly rate of pay. This is subject to change based on state or federal law.

Employees with a variable taxable income will have their PTO calculated according to their most recent full taxable month's wages computed at an hourly rate.

Bonuses and benefit values are not used for hourly PTO calculations.

Upon the end of employment for any reason, Green Dog will comply with the current laws of the State of California in terms of paying out PTO for California employees, and will comply with the current laws of the state in which the employee resides in for employees residing outside of California.

Unpaid Parental Leave (maternity, paternity)

Nothing excites us more than a co-worker becoming a parent. All new parents need time to bond with their child and support one another. We offer flexible options for new parents.

- 12 weeks unpaid bonding leave for new parents.
- Reasonable accommodations after the 12 week period.
- Flexible work schedule and remote opportunities for some roles.
- Speak directly with senior management to best understand all options.

Long Term PTO Accrual Policy Beginning January 1, 2023 for Full-Time Employees

Paid time off accrual or accrued time off is a type of PTO that full-time employees earn/accumulate over a period of time. Paid Time Off includes vacation leave, sick leave, personal leave, bereavement leave, etc. Each full-time employee is provided PTO in their written employment agreement that takes effect after they complete their introductory period at Green Dog. Full-time employees accrue additional PTO bi-annually thereafter according to the schedule below¹:

<u>Years of Service</u>	<u>Additional PTO</u>
After 2 years	+2 Days of PTO
After 4 years	+2 Days of PTO
After 6 Years	+2 Days of PTO
After 8 Years	+2 Days of PTO
After 10 Years	+2 Days of PTO
All PTO increases capped after 10 years	

¹ Additional PTO to be implemented according to this policy as long as there is **NOT** already an agreed-upon compensation adjustment that already grants them additional PTO days (i.e. earliest applicable agreement would be a compensation adjustment that would implement additional PTO starting in 2025).

- All PTO changes take effect on Jan 1st.
- Regardless of tenure, additional PTO accrual increases are capped once an employee reaches 21 total days of PTO.
- This policy does not apply to executives at Green Dog.
