

ROLES | RESPONSIBILITIES | TRAINING

We all know the importance of having a well organized clinic. A key component to this is everyone knowing their **Role** for the day and feeling confident they have the skills, training, and support required to execute these daily duties. At Green Dog we support employees being cross trained in multiple roles and encourage everyone to master as many roles as possible.

The following pages go into further detail including job summaries, core tasks, and training that may be required before an employee can be scheduled for that role.

AREA OF PRACTICE	ROLE
Clinic/Treatment	Clinic Assistant / Technician Trainee
	Clinic Technician
	Clinic Lead
	Doctor's Assistant (DA)

AREA OF PRACTICE	ROLE
Non Anesthetic Dental Technician	Lead Dental Technician
	Dental technician
	Dental Technician Trainee

AREA OF PRACTICE	ROLE
Advanced Procedures (AP)	AP Doctor's Assistant (DA)
	AP Technician (Nurse)
	AP Assistant

AREA OF PRACTICE	ROLE
Front Desk Concierge	Lead CSR
	Second in Command
	Third in Command

IMPORTANT TO NOTE:

Your *Job Title* is different from your *Daily Role*. **EXAMPLE:** If your job title is “Veterinary Technician”, you may have the role of Clinic Lead one day and be scheduled as Board Technician another.

DOCTOR’S ASSISTANT (DA)

Location: Clinic/Treatment
