 - **FOR DELEON - Since there is a mandatory \$25 deposit per appointment, this means we will charge an additional \$25 to the card on file for each appointment violation.**

➤ **Payment Policy:**

- A primary form of payment must be provided and saved to the rescue account on Ezyvet. This will serve as the default form of payment for any treatment unless otherwise stated by a rescue executive at least 24 hours prior to the appointment date.
- For any scheduled appointments that will be providing an alternate payment form varying from the default payment option on the rescue account, the following details **must** be specified:
 - Name of the foster/transporter bringing in the patient(s)
 - Name of individual who will be settling payment & approving treatment.
 - Specified payment form **must** be present in house for all approved services
 - This information will be **required** prior to the appointment and ideally during the time of scheduling otherwise we are to assume that the rescue will be responsible for covering payment and approvals for any unspecified patients charged through the provided default payment method.

Additional Instructions for Charging out Rescues

- We made a new line item/sales template for patients under the De Leon Foundation.
- When they book an appointment they have been making a \$25 VE deposit prior to their arrival, we've now created a new sales template titled "RESCUE TEMP" (this includes exam and credit). Please use this template for estimates so the deposit is reflected on their invoice.
- We've also added a new billing trigger "RESCUEBUN". This includes the same items to help streamline the process. Going forward, please be sure to use both the new sales template and billing trigger product for all De Leon Foundation patients.
